

**Program intersectoral conference: 'More to cellulose than meets the eye: lignocellulose sources, valorization and uses'**

**Tuesday February 14**

	<b>Lignocellulose valorization and cascading</b> <i>Chairman: Harald Grossmann (TU Dresden)</i>
14.00-14.30h	Registration of participants
14.30-17.00h	<b>Harald Grossmann</b> (TU Dresden): <i>Overview of fractionation technologies for cellulose as applied in the paper and board industry</i>
	<b>Päivi Rousu</b> (Chempolis): <i>From non-wood biomass to paper and biochemicals</i>
	<b>Ernst Worrell</b> (University of Utrecht): <i>Materials matter: the necessity of material efficiency</i>
	<b>Jori Ringman</b> (CEPI): <i>Importance of recycling and cascading</i>
	<b>Johan Sanders</b> (Wageningen UR): <i>Importance of cellulosic fibers for the Biobased Economy</i>
17.00-19.30h	<b>René Kort</b> (Schut) <i>Introduction and visit to Papierfabriek Schut</i>
19.30h	Dinner at Golden Tulip Doorwerth

**Wednesday February 15**

	<b>Opportunities and challenges for intersectoral cooperation</b> <i>Chairman: Mees Hartvelt (Businessplan Biobased Economy)</i>
09.30-12.30h	<b>Mees Hartvelt</b> (Businessplan Biobased Economy): <i>Developments of the Biobased Economy</i>
	<b>Jan Rotmans</b> (DRIFT): <i>The progress of intersectoral cooperation towards the Biobased Society</i>
	<b>Kees van Zijderveld</b> (Eska Graphic Board): <i>Valorization and cascading of grass</i>
	<b>Annita Westenbroek</b> (Royal Dutch VNP): <i>Business opportunities for intersectoral cooperation in cellulose fractionation and cascading</i>
	<b>Michiel Adriaanse</b> (Centre of Competence Paper and Board): <i>Practical examples of intersectoral cooperation in cellulose utilization</i>
	<b>Edwin Keijsers</b> (Wageningen UR): <i>Examples of industrial applications of alternative fibers, pulping processes and product applications</i>
12.30-13.30h	Lunch

## Matching supply and demand of lignocellulose fractions

*Chairman: Kees Herder (Coldenhove Papier)*

13.00-17.00h

**Henk Wannigen** (Staatsbosbeheer)

**Richard Gosselink** (Wageningen UR): *The effect of lignin processing and use of lignocellulose sources*

**Chris de Visser** (Energieboerderij)

**Joep Breuer** ( NPSP Composieten)

**Mark Reinders** (Hempflax)

**Duward Sikkens** (Arjo Wiggins Security Paper): *Dutch cotton*

**Jorg Kühn** (Glatfelter): *Identifying new (alternative) sources of fiber and spotlighting the opportunities for developing these sources for paper*

**Leon Mur** (Kenniscentrum Plantstoffen)

**Klaas van der Vlist** (Smurfit Kappa) *Non-wood fiber applications in board*

**Gert-Jan van Delft** (HAS Den Bosch Biobased Productontwikkeling)

**Jacco Bosch** (J.Rettenmaier & Söhne): *Nanofibres and nanotechnological methods for preparing and modifying fibers*
